**REQUESTED ACTION**

None. This item is for information and possible direction.

**BACKGROUND**

In order to identify regional transportation project delivery issues and challenges, EDCTC staff performs Planning, Programming, and Monitoring (PPM) duties for regionally significant projects in the EDCTC region. These PPM duties are conducted in collaboration with the El Dorado County Department of Transportation, City of Placerville Public Works Department, the Sacramento Area Council of Governments, and Caltrans' Local Assistance.

**DISCUSSION**

The reports include projects funded with State Transportation Improvement Program, State Highway Operations and Protection Program, Corridor Mobility Improvement Account, Congestion Mitigation and Air Quality, and Regional Surface Transportation Program funds, as well as regionally significant projects funded with local funds, such as Traffic Impact Mitigation fees.

The report now includes "project status symbols" to indicate whether a project is:

-  Within current cost and/or on schedule
-  Has potential cost and/or schedule impacts
-  Has known cost and/or schedule impacts

Staff will provide the Commission with a brief oral summary of the Project Monitoring Report.
