**SUBJECT: FEDERAL CMAQ FUNDING PROGRAMMING**

Dear Ms. Sloan:

El Dorado County Transportation Commission (EDCTC) recently concluded a Call for Projects process for Federal Congestion Mitigation and Air Quality (CMAQ) funds. On February 7, 2008 the EDCTC chose not to fund contributions to the SACOG Transportation Demand Management (TDM) program. Under the circumstances where projects and programs exceeded the amount of available funding, the Commission chose to fund the Spare the Air Program and a High Occupancy Vehicle Lane project in El Dorado County. Please be assured that EDCTC will continue to conduct future TDM activities in El Dorado County as part of our ongoing Alternative Transportation work element included in our Overall Work Program.

Sincerely,

A handwritten signature in black ink, appearing to read 'Jerry Barton', written over a horizontal line.

Jerry Barton  
Senior Transportation Planner
