

**STIP TE PROJECTS**

**EL DORADO TRAIL - CLAY STREET TO BEDFORD AVENUE**

**Project Description**

The project is located in the City of Placerville between Clay Street and Bedford Avenue adjacent to Hangtown Creek. The right-of-way is to be relinquished to the City after completion of the US Highway 50 Operational Improvements project. The 10-foot wide, 800-foot long Class I bike path will be constructed to connect with the new Bike/ Pedestrian overcrossing of US 50 at Bedford Avenue.

**Current Project Status**

The EDCTC programmed STIP-TE funds to this project in February 2008. In May 2008, the PA&ED and PS&E phases were programmed by the CTC during fiscal year 2010/11 with construction in 2011/12. The project development and construction is being coordinated with the Clay/Cedar Ravine roundabout project. The environmental analysis for this trail segment has been included as part of the PA&ED package for the Cedar Ravine/Clay Street Roundabout and Bridge project. City staff is currently preparing a CTC allocation request for the PS&E Phase of the project.

**Upcoming Activities**

- Coordinate project development with the Clay/Cedar Ravine Roundabout
- Receive CTC approval of PS&E Allocation in January 2011
- Commence work on the design phase of the project

PROJECT FUNDING DETAIL				
Project Phase	Amount Programmed	Source	Status	Project Cost
PA&ED			<i>This phase is being completed in conjunction with Clay/Cedar Ravine Roundabout Project</i>
