*Creating a fire adaptive and
resilient El Dorado County through
collaboration and coordination.*

The El Dorado County Transportation Commission (EDCTC) is holding a community public workshop to review and comment on the draft results of the Greater Placerville Wildfire Evacuation Preparedness, Community Safety, and Resiliency Study. The study identified a draft list of transportation improvements needed to allow the public to evacuate during a wildfire and first responders to get into the community to fight the fire.

This study will be a necessary resource for the City of Placerville, El Dorado County, Caltrans, CAL FIRE, United States Forest Service, PG&E, El Dorado Irrigation District, other agencies, and the public.
